

Residence Halls and Apartments

- The four main residential halls will have hand sanitizer stations in high traffic areas.
- Custodial Staff will be cleaning high touch areas multiple times a day, including the community bathrooms.
- New Mattresses that will be opened by students when they arrive to campus for Fall 2020.
- Pest Control Inspection completed in June 2020.
- Furniture in common spaces spread farther apart to promote social distancing.
- Automatic doors installed for touchless entry.
- Shower Heads that are water saving.
- LED Lights replacing old blubs.

Building Specific:

- Seaton first floor lounge remodel
- Seaton and Whitehouse Hall and common spaces repainted

At Albion, we are committed to giving students a fresh looking, clean, and safe environment to live in. In current times, Albion has done a number of updates to buildings as well as making sure we are cleaning high touch areas well and often.

Having Issues in Your Room?

If there is anything going on in your room, from heat/cooling issues, to window issues, to a burnt out light bulb or even IT issues, do a work order!

In every room near the door or closet, there is a sign talking about how to submit a work order.

Once you submit a work order, it is assigned to the proper person from IT or Facilities and they will contact you or come to your room as soon as they can to help with the issue.

Things to Remember:

- Masks need to be worn in buildings
- Wash and Sanitize your hands often
- Clean and sanitize your room multiple times a day/week
- Be mindful and courteous to those around you

Office of Residential Life Staff is excited to welcome you this Fall.

Preparing for Fall 2020
